## NOTES:

Correct time taken to get to IRTC4 is 9.5 mins (or 9m 30sec)

Opener1 - didn't make a note on the timecard of the codes on the physical codebaords - only fails picked-up by RallyAppLive counted here. Non finisher because a) they're a course car, b) didn't check-in at MC2

Car2 - non-finisher owing to not checking-in at MC2. If they had, they would have had 7 fails & 13 minutes

Opener2 - didn't make it back to the finish (or MC2 in time)

Car4 - non-finisher

VPC = virtual passage control (via the app)

CB = code board passage control (number plate on a stick)

VPC12 was a manned control
