

Firecracker

Festive frolics around the lanes with around 55 miles of competitive motoring in Nottinghamshire and Leicestershire on Map 129 (latest edition required), organised by Richard Lumb and Chris Bravington.

Start and finish at the Salutation, Keyworth NG12 5AD (129/615312) – first car away at 8:00. Chip butties will be at the finish.

Navigation will be varied but straightforward with help sheets for novices, plotting in advance for beginners and marked routes for absolute beginners.

This Guy Faulkes event the first of the season and we welcome absolute beginners, beginners and experienced crews alike. Some marshals and a course closer would also be welcome.

Entries are online and you will need the latest version of RallyAppLive on a fully charged mobile phone inside the car.

Most of the admin is done on screen but you will still need to record code boards on your time card.

We can't promise a bonfire but look forward to seeing your fireworks on the night.
